Really proud to be here at the 30th edition of AEEDC. I know that German companies are part of AEEDC history from the very beginning and so we are very proud to be here with the biggest pavilion we ever had in AEEDC history. And we would like to thank the organizer, we would like to thank all the staff who helped us to organize such a great opportunity for our companies here in Dubai.

We saw over this long period that AEEDC is increasing, increasing in quality, increasing in quantity, more and more companies are coming. When we started with the German pavilion there were no other pavilions but now we have the whole world here in Dubai and this is one of the biggest successes. I can only congratulate you.

Holger Lehmann
Foreign Trade & Exhibitions Manager
VDDI Dental Solutions, German Manufacturers

What keeps us coming back to AEEDC Dubai is it is the destination event. If you're going to choose one event to be at in this region of the world, it has to be AEEDC Dubai. Just for the breadth and the scope of what's here. It also allows us to fulfil two main objectives and that's engaging B2B and B2C.

We get to spend time with our existing partners and distributors in this region and we get to explore and engage potential new partners in this region. Having the booth gives our existing partners in the Middle East a home for them to engage with their customers. AEEDC Dubai is massive, really well organized, it's the main event in this part of the world and I can only see it getting bigger and better and we love being here.

Chris Flynn
Associate Director, EMEA Marketing
ZIMVIE

AEEDC Dubai is the largest scientific conference and for us it's a very important show to be here to get in touch with not only our customers but also with future customers so it's very important event globally for us. We have a very great experience over the last years and for us it's a top priority always to be here. We are the pioneers in visualization and our microscopes exist since a very long time. Our company stands for quality and vision.

Florina Demaj
Head of Business Sector Dentistry
ZEISS Microsurgery

The Dental Business Hub served as a key driver for high-value connections, hosting 2,195 pre-arranged meetings involving 743 participants from 63 countries. The platform brought together key decision-makers—including buyers, distributors, and healthcare providers—with exhibitors, fostering direct business opportunities and strategic partnerships.

2,195 Business Meetings

743 Participants from **63** Countries

Innovation took center stage at the Startup Area, where **13 emerging companies** from Canada, Poland, Turkiye, UAE, South Korea, Belgium, India, presented forward-thinking solutions. The area drew significant attention from investors and industry leaders seeking to discover new technologies and expand their portfolios.

The Education Corner introduced a dedicated space for academic engagement, featuring **14 renowned universities and institutions** from the USA, UK, Canada, Germany, Austria, Egypt, Oman, Hong Kong. The initiative provided attendees with direct access to advanced educational pathways and insights into the future of dental training and research.

Hong Kong is a very exciting city to study in so it's a very cultural diverse city where East meets West, so we are also very proud that recently we have obtained number two in the QS ranking by subjects. We are definitely a premier global dental school, so we are looking forward for students from all around the world to come join us and to study.

Derek Lam
Executive Officer

AEEDC Dubai is such a great event. We meet people from not only the region but also from all over the world. It is an important event for us and we love to showcase our products here in the market. The hospitality is outstanding and you will meet so many nice people who will make a difference in your day and business.

Christof Bisssdorf, VP
General Manager, EMEA, MEDIT

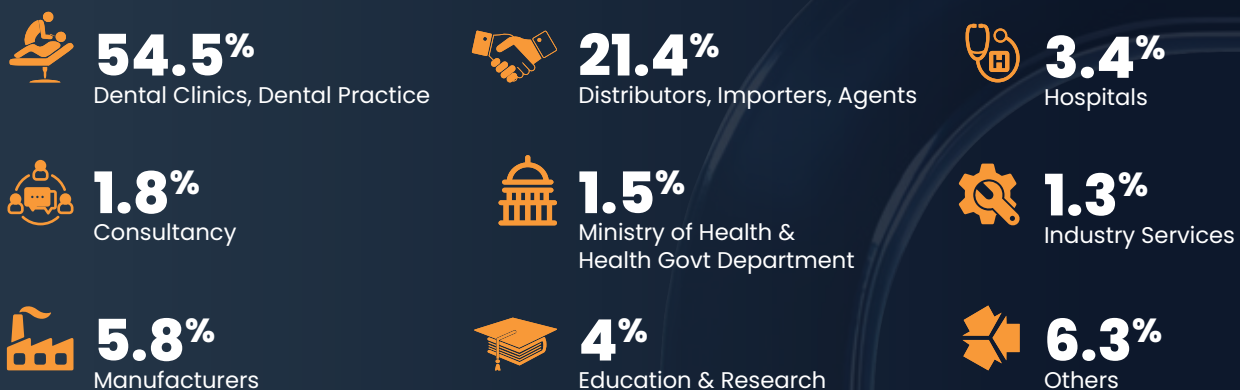

AEEDC Dubai is very well organized and we get a very good response from our partners from the region. They all come to the AEEDC and again it's getting bigger and bigger. It's a very big show. AEEDC can be reached from all over the world. We have customers and partners coming from all areas. So it's a mandatory show for us to be at the AEEDC."

AEEDC Dubai's a fantastic Congress. It's the biggest dental Congress that we attend as a faculty. And it's been wonderful this week to connect with some of our own members and fellows. But as well as that, lots of university partners, education providers, the industry itself, and so many delegates who are interested in proving their own career. It's been a great opportunity to connect with people at all different stages of the journey throughout their career. And we look forward to joining AEEDC Dubai again next year.

Prof. Dr. Grant McIntyre – Ireland (UK)

I'm very, very happy to be here at AEEDC Dubai for my first time as a speaker. It's a great opportunity. I do understand that this is the largest dental meeting in the world, so it's a great opportunity to be here as a speaker. And I've heard there's 78,000 dentists that come here during the entire week. So it's definitely a very, very big event with a lot of exposure to dentists with the newest trends in dentistry, and I think it's a great opportunity for all these people to come together, exchange ideas, and enjoy a beautiful city like Dubai.

What's the difference between this and other meetings? Well, I definitely see that there's a great... organization when it comes to the meeting itself and also when it comes to the scientific program. I would be very happy to come to AEEDC Dubai next year as well and I think it would be a great opportunity to once again experience this one more year.

Dr. Emanuele Cicero – Italy

Special AEEDC OMFS Pre – Conference: AO CMF Course

16–17 January 2026

A highly focused 2-Day programme combined expert-led lectures, interactive group discussions, and intensive hands-on training. The course emphasized practical skill-building, including advanced facial analysis and treatment planning, delivering a comprehensive learning experience in oral and maxillofacial surgery.

17–18 January 2026

An engaging 2-Day platform united global experts for a rich blend of lectures and hands-on sessions. Key disciplines included Restorative Dentistry, Oral Implantology, Paediatric Dentistry, and Orthodontics—addressed current challenges and innovations shaping modern dental practice.

19–20 January 2026

This dedicated 2-Day orthodontic conference featured 13 leading experts exploring cutting-edge concepts under the theme “Conventional and Futuristic.” The programme delivered forward-looking insights into evolving orthodontic techniques and technologies.

The high scientific quality of the lectures and the opportunity to learn from internationally recognized speakers

Dr. Abdulrahman Alduhayman

AEEDC Dubai World Orthodontic Conference invited me to be the speaker and I was very privileged to have the chance to present my work. My experience here is that it's a very good platform to share clinical experience, opinions, and to learn from each other. I'm looking forward to more new technology developed and that will be beneficial for both doctors and patients.

Dr. Jing Feng – China

19–21 January 2026

Under the theme “Harmony of Aesthetics & Function in the Maxillofacial Region: Best Practices & Challenges,” this specialized conference brought together 18 renowned speakers to present evidence-based approaches aimed at optimizing surgical outcomes and advancing clinical excellence.

The innovative and highly international regional speakers

Mr. Manfred Seeger
KLS MARTIN

It's been an honor and a pleasure to be one of the keynote speakers in this year's 11th edition of AEEDC Dubai World Oral & Maxillofacial Surgery conference that goes in parallel with the 30th anniversary of the AEEDC Dubai conference. AEEDC has been a mainstay of knowledge, technology, fun. It's actually an event that we enjoy to come and attend. We see people we haven't seen for ages. We learn so much. We get exposed to technology we haven't seen for a long time. It used to be the biggest conference in the Middle East. Now it's the biggest conference in the world.

Dr. Mohammed Al Muharraqi – Bahrain

19–21 January 2026

A series of high-level, hands-on courses led by top-tier experts across diverse disciplines, included Forensic Dentistry, Airway Management, Pediatric Dentistry, Dental Conscious Sedation, Endodontics, Perio-Implantology, Laser Dentistry, Microscopic Dentistry, Digital Implantology, and Aesthetic Dentistry—offered participants practical, skill-driven learning experiences.

19–21 January 2026

A newly introduced programme delivered in-depth, didactic sessions across multiple specialties. Topics included Leadership in Dental Practice, Forensic Dentistry, Aesthetic Dentistry, Oral Implantology, Restorative Dentistry, Endodontics, and Oral Medicine—designed to elevate both clinical and professional competencies.

19–21 January 2026

The flagship scientific programme featured more than 106 sessions delivered by 107 internationally renowned speakers. Covered the latest research, innovations, and clinical advancements, the conference fostered a vibrant exchange of knowledge and ideas while creating valuable opportunities for professional growth.

AEEDC Dubai is truly one of the most outstanding dental conferences I have attended. The quality of the speakers, the organization, and the wide range of scientific sessions are exceptional. It provides a perfect platform to learn about the latest advancements in dentistry while connecting with professionals from around the world. Every year, the event exceeds expectations and delivers real value to clinical practice.

Dr. Zinab Khalil
Dr. Zeinab Dental Clinic

I would like to express my sincere appreciation for the excellent organization and outstanding professional standards demonstrated at the AEEDC medical and dental exhibition. The exhibition provided a highly valuable educational and clinical experience, bringing together leading experts, innovative technologies, and reputable companies from around the world. The scientific sessions, workshops, and networking opportunities significantly contributed to enhancing my knowledge and professional development as a dental student. I truly commend the organizing team for delivering such a well-structured, informative, and inspiring event, and I highly recommend AEEDC to all healthcare professionals seeking continuous learning, innovation, and global collaboration.

Faisal alharbi
Ksau-hs

SPECIAL POST AEEDC SERIES

22 January 2026

Extending the learning experience beyond the main event, this 1-day series featured two highly impactful hands-on courses in dental photography and aesthetic dentistry, providing participants with additional opportunities to refine their skills and expand their expertise.

19–20 January 2026

With over 400 compelling case studies on display, the poster hall served as a dynamic hub of research and innovation—transformed scientific findings into engaging knowledge-sharing experiences and fostered meaningful academic exchange.

19–20 January 2026

The 18th AEEDC Dubai Student Competition brought together 24 international universities, empowering the next generation of dental professionals. Teams of five students engaged in intellectually stimulating challenges, promoting collaboration, critical thinking, and global knowledge exchange.

AEEDC 2026 thanks its partners and sponsors for their continuous support

See you next year!
